# FOREWORD

Higher Education is considered as one of the backbones of country's overall development globally. The Government of Nepal has put higher education as one of its priorities. The Higher Education Policy-2076 aims to develop internationally competent, scientific, innovative human resource in the country by increasing access, improving equity and promoting quality in educational leadership for building knowledge-based society and economy. The policy also strives to develop the country as an educational hub with provisions of world-class education in some specific subject areas. In line with this, the University Grants Commission (UGC), an apex body of Higher Education Institutions has developed a National Higher Education Framework (2021-2030) which is being implemented from this year. UGC has also developed Strategic Plan for Quality Assurance and Accreditation (2021-2030) and Research Sustainability Plan (2021-2024) to accomplish the policy objectives of the Higher Education Policy-2076.

Currently, a total of eleven centrally supported public universities, six health academies and 1437 higher education institutions, both constituent and community campuses, are providing mainstream higher education in the country. In addition, Government of Nepal has also allowed more than 80 institutions with international affiliations to run higher education programs. Despite presence of large number of higher education institutions, providing access to increased number of eligible population remains a challenge, the quality of higher education and its relevance to market and to the national priority have been a concern of stakeholders. To address these challenges and concerns and develop rigorous plans and programs authentic and timely data plays crucial role. Similarly, researchers and academicians demand data for their endeavors on a regular basis.

One of the important tasks of the University Grants Commission (UGC), Nepal is making available the reliable higher education data and information on a regular basis. For this UGC maintains Higher Education Information System (HEMIS) and publishes the Annual EMIS Report. The current publication is thirteenth in its series. The data and information presented in this report provide several information like: universities and their academic programs, student enrolment disaggregated by level, gender, faculty, province and universities; distribution of campuses of universities in each provinces; teachers, programs of faculties taught in each province; trends of student enrollment in each faculty, funding, GER and many more. All these data are of utmost importance for improving access to and enhancing the quality of higher education and supporting stakeholders in making informed decisions. These information also help support criteria and indicator-based allocation of resources. Although UGC has a properly functioning HEMIS and human resource devoted to this, timely update of data and publication of Annual EMIS Report largely depends upon coordination, collaboration and cooperation between UGC, Universities, Academies and HEIs. UGC, as a coordination body, has been supporting Universities and their constituent and affiliated institutions in strengthening their Education Management Information Systems. UGC is also planning to develop broadband digital technology to connect UGC and HEIs for fast and reliable collection of educational data.

We are pleased to bring this publication at your hands this time. We have been encouraged by inquiries and use of HEMIS data in the past and believe that this publication benefits academicians, researchers, students, administrators. We also believe that this publication is equally useful to those engaged in educational planning and implementation, research, monitoring and other tasks related to higher education in Nepal. Finally, we would like to take this opportunity to thank all those who have contributed in the preparation of this report for their valuable time, support and suggestions. UGC also appreciates valuable feedbacks and suggestions to improve the quality and coverage of the report in the coming years.

# ACKNOWLEDGEMENTS

---

This report has been prepared based on the data Universities, their campuses and several other institutions. University Grants Commission Nepal highly acknowledges their kind cooperation and support. UGC would like to express thankful appreciations to the contribution made by Mr. Mohammad Umar Tribhuvan University. Similarly, thankful appreciations go to Mr. Dhurba Rimal and Ms. Rupa from the Faculty of Management, Tribhuvan University; Mr. Shekhar Dhungana from Kathmandu University; Ms. Archana Shrestha from Patan Academy of Health Sciences; Mr. Lok Raj Dhakal from Pokhara University; Mr. Dhirendra Kr. Mallick from Purbanchal University and staffs responsible for data management from Far-Western University, Mid-Western University, Agriculture and Forestry University, National Academy of Medical Sciences, Lumbini Bauddha University, Nepal Sanskrit University and BP Koirala Institute of Health Sciences. Developing and maintaining H-EMIS is a collaborative work, contribution of the participating organizations and HEIs are crucial for up keeping the data system and publication of this annual report regularly, we remain confident for continued cooperation and support of all stakeholders in future endeavors. UGC highly appreciates their contributions. UGC also appreciates the special contribution of all the concerned staffs of the commission in the publication of this report.

# EXECUTIVE SUMMARY

This annual EMIS report 2019/20, the thirteenth edition, provides the status of the higher education in Nepal in the year 2019/20. In the year 2019/20, there are eleven full universities and four medical academies (governed by government of Nepal). The constituent and affiliated campuses, central departments are providing education on different programs of different faculties to the students. The campuses of the universities are categorized into two types: constituent and affiliated. The affiliated campuses are either private or community-based.

The eleven full universities are Tribhuvan University (TU), Nepal Sanskrit University (NSU), Kathmandu University (KU), Purbanchal University (PU), Pokhara University (PokU), Lumbini Buddhist University (LBU), Agriculture and Forestry University (AFU), Far-Western University (FWU), Mid-Western University (MU), Nepal Open University, and Rajarshi Janak University, and four medical academies are B.P. Koirala Institute of Health Sciences (BPKIHS), National Academy of Medical Sciences (NAMS), Patan Academy of Health Sciences (PAHS) and Karnali Academy of Health Sciences (KAHS).

In the year 2019/20, there are altogether 1,437 campuses consisting of 152 constituent (10.58 percent) campuses, 749 private (52.12 percent) and 536 community (37.3 percent) campuses. In terms of the level of education more than 1250 campuses are offering Bachelor level of programs and more than 300 campuses are offering Masters level of programs.

TU has 1,144 campuses (62 constituent and 1082 affiliated campuses). The other major universities in terms of the student number are PU, PokU, and KU. These universities have more than 18,000 students and more than 20 campuses; PU has 116 (8.07 percent) campuses, PokU has 67 (4.66 percent) campuses and KU has 24 (1.67 percent) campuses.

From the point of view of the ecological belts, 58.73 percent (844) campuses are located in Hill belt, 35.90 percent (516) campuses in the Tarai belt and 5.35 percent (77) campuses in the Mountain belt. In terms of the provinces, 624 (43.42 percent) campuses are located in Bagmati province, 185 (12.87 percent) in Lumbini province, 197 (13.71 percent) in province One, 123 (8.56 percent) in province Two, 151 (10.51 percent) in Gandaki province, 95 (6.61 percent) in Sudurpaschim province and 62 (4.31 percent) campuses in Karnali province.

## Enrollment in Higher Education

During 2019/20, total 466,828 students are enrolled in the Higher Education. TU has 356,654 (76.4 percent) students, PokU has 32,584 (6.98 percent) students, PU has 27,527 (5.9 percent) students and KU has 18,643 (3.99 percent) students and the rest of the students are enrolled in other universities and medical academies.

The enrollment proportion in terms of the field of education is 77.83 percent in general programs and 22.17 percent in technical programs. Enrollment in management, education, and humanities are 43.43 percent, 19.10 percent and 12.61 percent respectively. Enrollment in S&T, medicine and engineering are 8.0 percent, 5.95 percent and 6.38 percent respectively.

The distribution of students across the ecological belts shows that 60.31 percent students are in Hill belt, 37.41 percent students are in Tarai belt and 2.28 percent students are in Mountain belt. In terms of the seven provinces 230,608 (49.4 percent) students are in Bagmati Province, 56,681 (12.14 percent) are in Lumbini province, 55,729 (11.94 percent) are in province one, 40,291 (8.63 percent) are in Gandaki province, 34,066 (7.30 percent) are in province two, 31,075 (6.66 percent) are in Sudurpaschim province and 18,378 (3.94 percent) are in Karnali province.

The share of the student enrollment in the community, constituent and private campuses are 28.52 percent, 35.80 percent and 35.68 percent respectively.

## Share of Girls in HE Enrollment

The overall girl's enrollment in HE in Nepal is about 52.98 percent. University-wise, the girls' enrolment proportions of TU, KU, PokU and PU are 54.66 percent, 46.57 percent, 43.79 percent and 52.38 percent respectively. The proportions of girls' enrollments in the medical academies are: BPKIHS: 44.66 percent, PAHS : 72.60 percent and NAMS : 68.69 percent.

In terms of the campus types, the biggest share (65.53 percent) of girl's enrollment is observed in the community campuses. This figure is 50.06 percent for the private campuses and 46.05 percent for the constituent campuses.

The proportion of girls' enrollment in the education, medicine, management and humanities and social sciences faculties are 68.24 percent, 62.83 percent, 56.34 percent and 48.63 percent respectively. The percentage of girls in total enrollment in bachelor level and masters level of education are 54.17 percent and 44.74 percent respectively.

## Gender Parity Index (GPI)

GPI of HE in the year 2019/20 is 1.07.

## Pass Percent

The pass rate of Tribhuvan University (TU) is 29.3 percent, of Patan Academy of Health Sciences (PAHS) is 97.5 percent, of Nepal Open University is 72 percent. Most of the students are studying in TU, so the overall pass rate of the higher education is highly influenced by the pass rate of TU.

## Graduates

The figure about the number of graduates included in this report is based on the number of students included in the grace list prepared by the related universities for the convocation programs.

During the year 2019/20, 79,541 students were graduated from KU, MU, AFU, NAMS, BPKIHS, NOU, PAHS, PokU and TU.

## Gross Enrolment Ratio (GER) in Higher Education

Gross enrolment ratio for higher education stood at 15.00. In the bachelor level of education the GER is 18.91 and in the masters level of education the GER is 5.52.

## Public Financing

The universities have been receiving block grants (i.e. regular and development grants) and the community campuses get small token grants. In case of medical academies, the funds are made available directly through the Ministry of Health and Population. The grants provided to the universities in the year 2019/20 is 13.46 billion rupees.

## Teachers

In the year 2019/20, the total numbers of teaching staffs (including instructors) is 10,810, among them, 46.55 percent are Lecturers, 21.63 percent are Readers and 8.05 percent are Professors.

## Student-Teacher Ratios

The overall average student-teacher ratios (number of students per teacher) are as follows:

TU (16.24:1), KU (17.63:1), MU (28.27:1), FWU (25.89:1), PokU (23.63:1), PAHS (0.94:1), NAMS (1.95:1) and LBU (14.35:1)

# SECTION 1

## Introduction

Information about the status of higher education is of utmost importance to the policy makers and the government. The higher education refers to bachelors, post graduate diploma (PGD), masters, M. Phil., and Ph.D. level of education. The status of the higher education in the consolidated form is published by the University Grants Commission (UGC) annually in the form of EMIS report. The EMIS report presents information about the higher education in Nepal through disaggregated and comprehensive data.

UGC established an Education Management Information System (EMIS) under the Second Higher education Project (SHEP, 2007-2014) with support from the World Bank, to ensure quality of the data regarding the higher education by standardizing the process of data collection, their effective management and timely publication. Accordingly, a set of EMIS indicators were prepared.

This is our thirteenth attempt to bring out a comprehensive report about the higher education system in Nepal. The main purpose of this volume is to provide adequate, accurate, timely and reliable data to the education stakeholders.

This EMIS Report on the higher education has covered a broad range of topics that include information about the higher education institutions (universities, medical academies and their campuses), student enrollment, gross enrollment ratio (GER), pass rates, gender parity index (GPI), graduates, teachers, public financing, higher education system, trend analysis and academic programs.

### 1.1 Organization of the Report

There are twelve sections in the report: the first section provides introduction to the report, the second provides background information on universities, number of their campuses, distribution of the campuses by the provinces and the third gives university-wise information on enrollment status, by the type of campuses, location, and level of education.

Section four provides data on GPI. Section five provides information on the pass rates of the universities. Section six presents information about the distribution of graduates of the universities. Section seven provides the GER for bachelors and masters degrees.

Section eight presents information on the government financing for universities channeled through the UGC. Information on teachers is presented in section nine. Section ten lists the average student/teacher Ratio (STR) in the constituent campuses of the universities. Section eleven provides the number of institutions by the number of students in different ranges. The section twelve shows the trends of total campuses, enrolment, teachers and graduates.

The annexure is followed by the main text of the report. It includes a total of seven annexes. Annex one provides definitions of concepts and terminologies used in the report. The second one a brief description of the higher education system in Nepal and the third annex presents brief descriptions of the universities and academies. Annex four contains information about report preparation. Annex five contains the detailed enrollment information of various campuses based on the provinces: in various faculties, programs and levels. The remaining two annexes sixth and seventh present EMIS indicators and a brief introduction of the UGC.

### 1.2 Methodology

This report is prepared through contributions of the concerned universities through their planning divisions, Office of the Controller of Examination (OCE) and Dean's Offices, Central Bureau of Statistics (CBS). The data were collected from OCE of universities.

### **1.2.1 Data Collection**

Data were collected from the examination division of the universities, their dean's office in the spread sheet format. Emails, phone calls were the medium of conversation with the respective data providers.

### **1.2.2 Data Processing:**

The EMIS section has created a simple database system to store and manage the data of campuses of the universities. The collected data were preprocessed and transformed to the format required by the data analysis software modules. The modules for data analysis and summary table generation are developed inhouse. The system is maintained carefully so as to have control over the collected data, their coding, entry and verification.

### **1.3 Scope and Limitations**

Data collection process is still a very time-consuming process as all of the universities have not maintained proper computerized information system. The proper implementation of the academic calendar has been a challenge for some of the big universities, that has made the data collection process even difficult. The student enrollment time, exam conduction, result publication all varied between the universities and even within the departments, dean's office of the same university. Sometimes the variation in the dates of student enrollment, exam etc used to vary greatly.

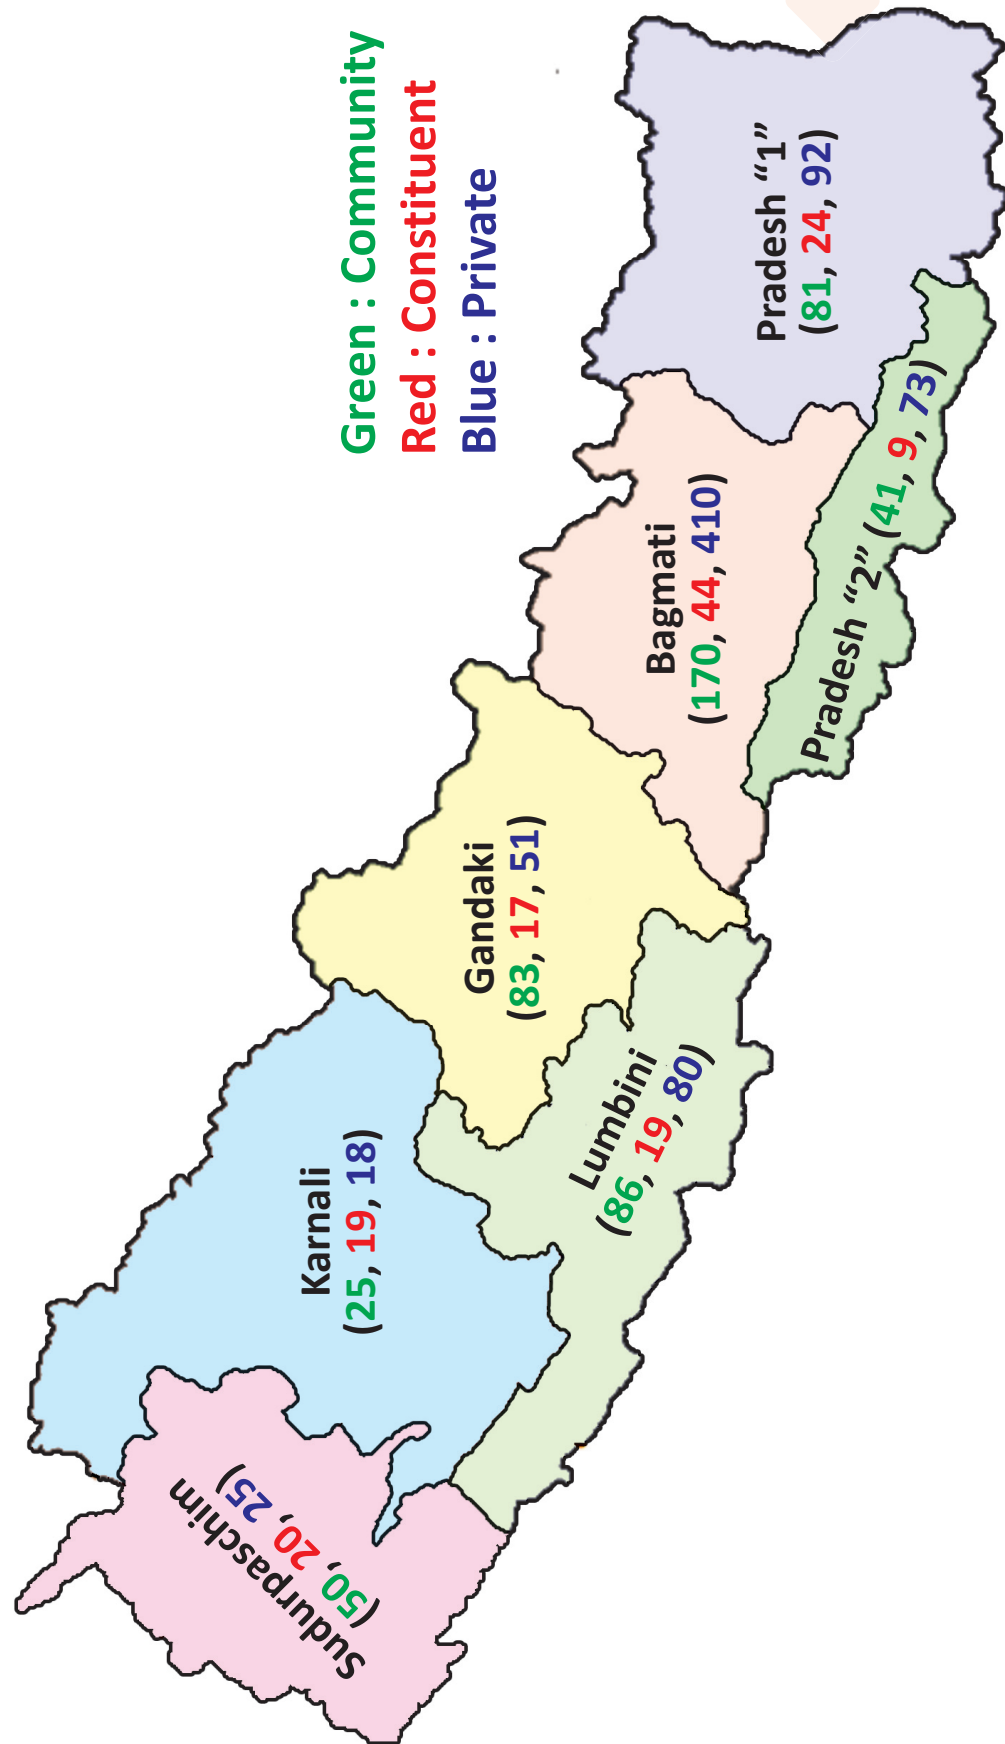

The lack of proper academic calendar resulted in different dates for the examination, enrollment and delay in the data collection process.

### **1.4 Data in Maps**

Four maps are developed for the pictorial representation of the distribution of campuses, students in provinces.

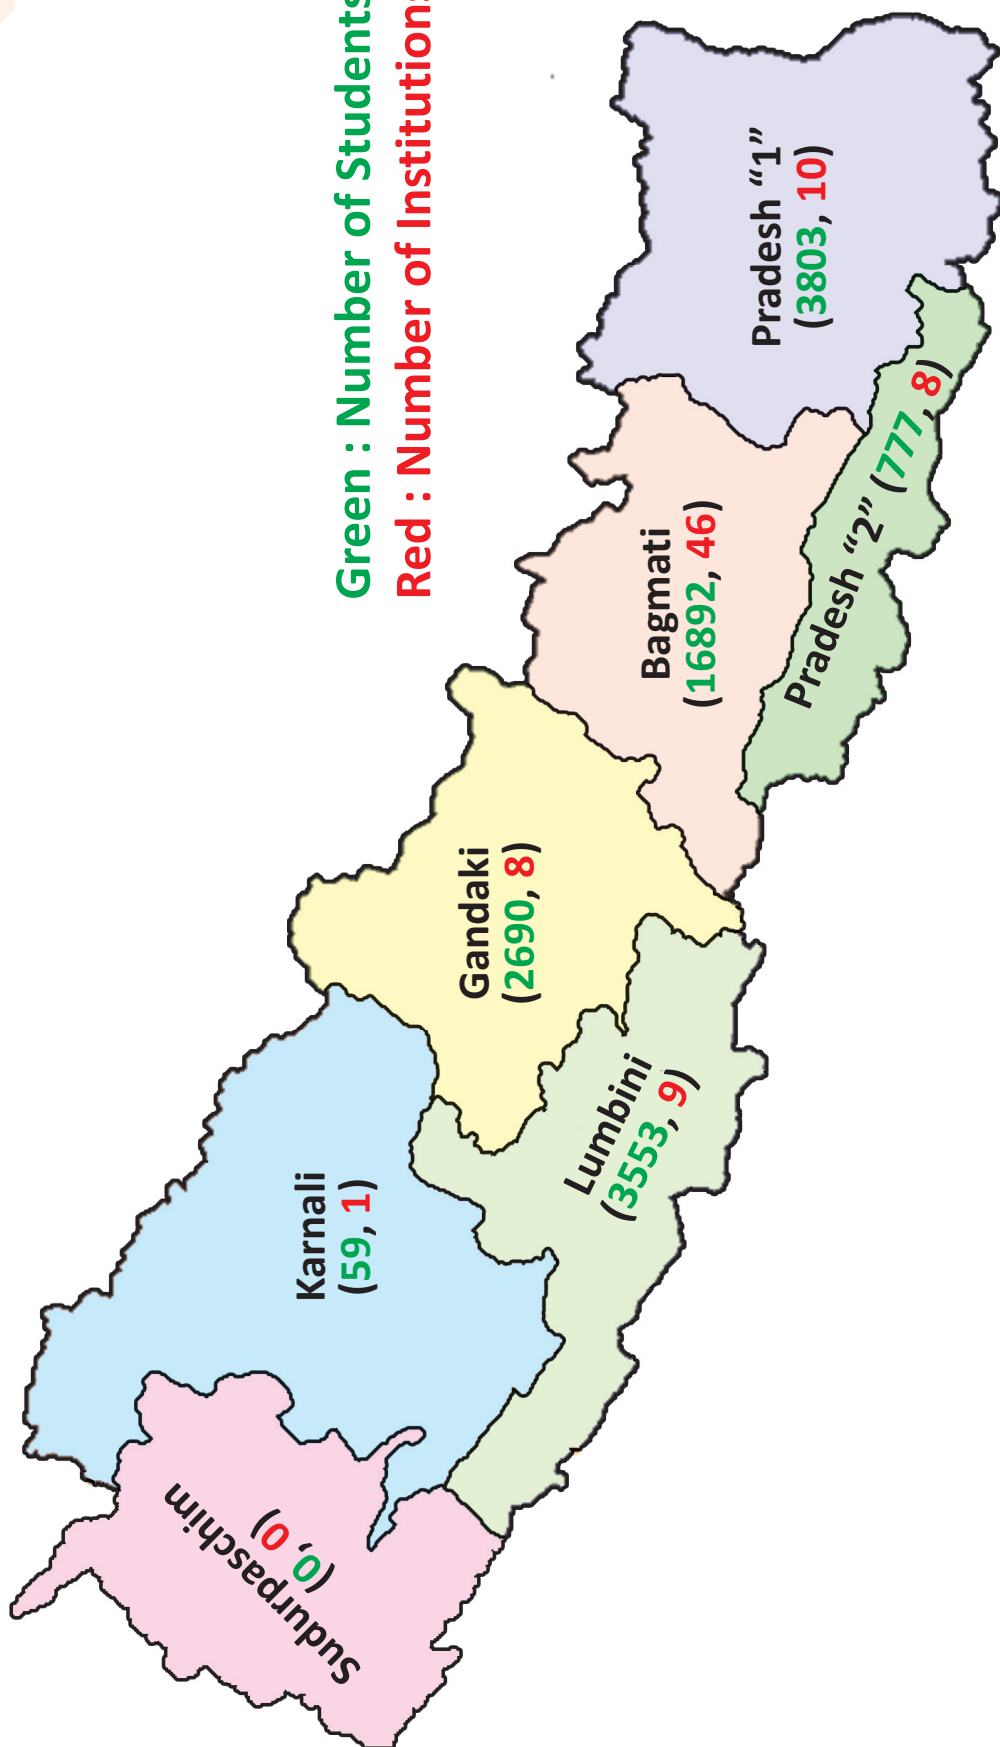

## MAP - 1

### Distribution of Community, Constituent, Private Campuses in Provinces

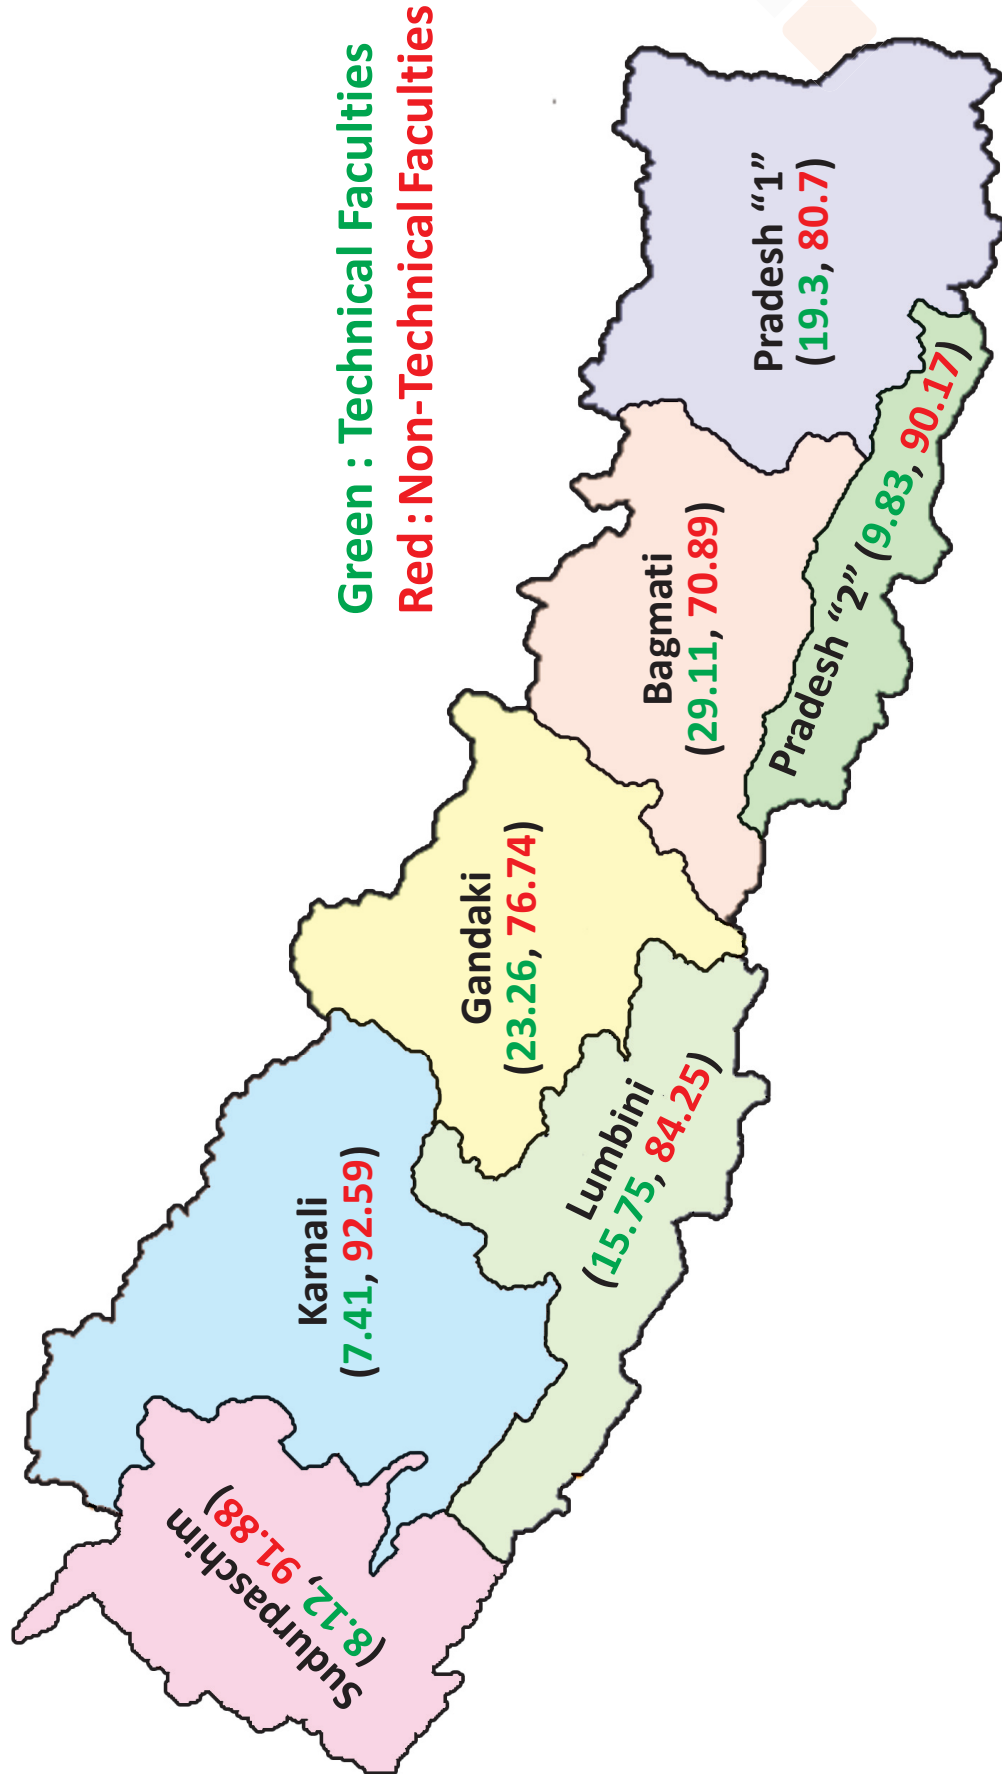

## MAP - 2

### Number of Students and Institutions in Medical Faculty in each Province

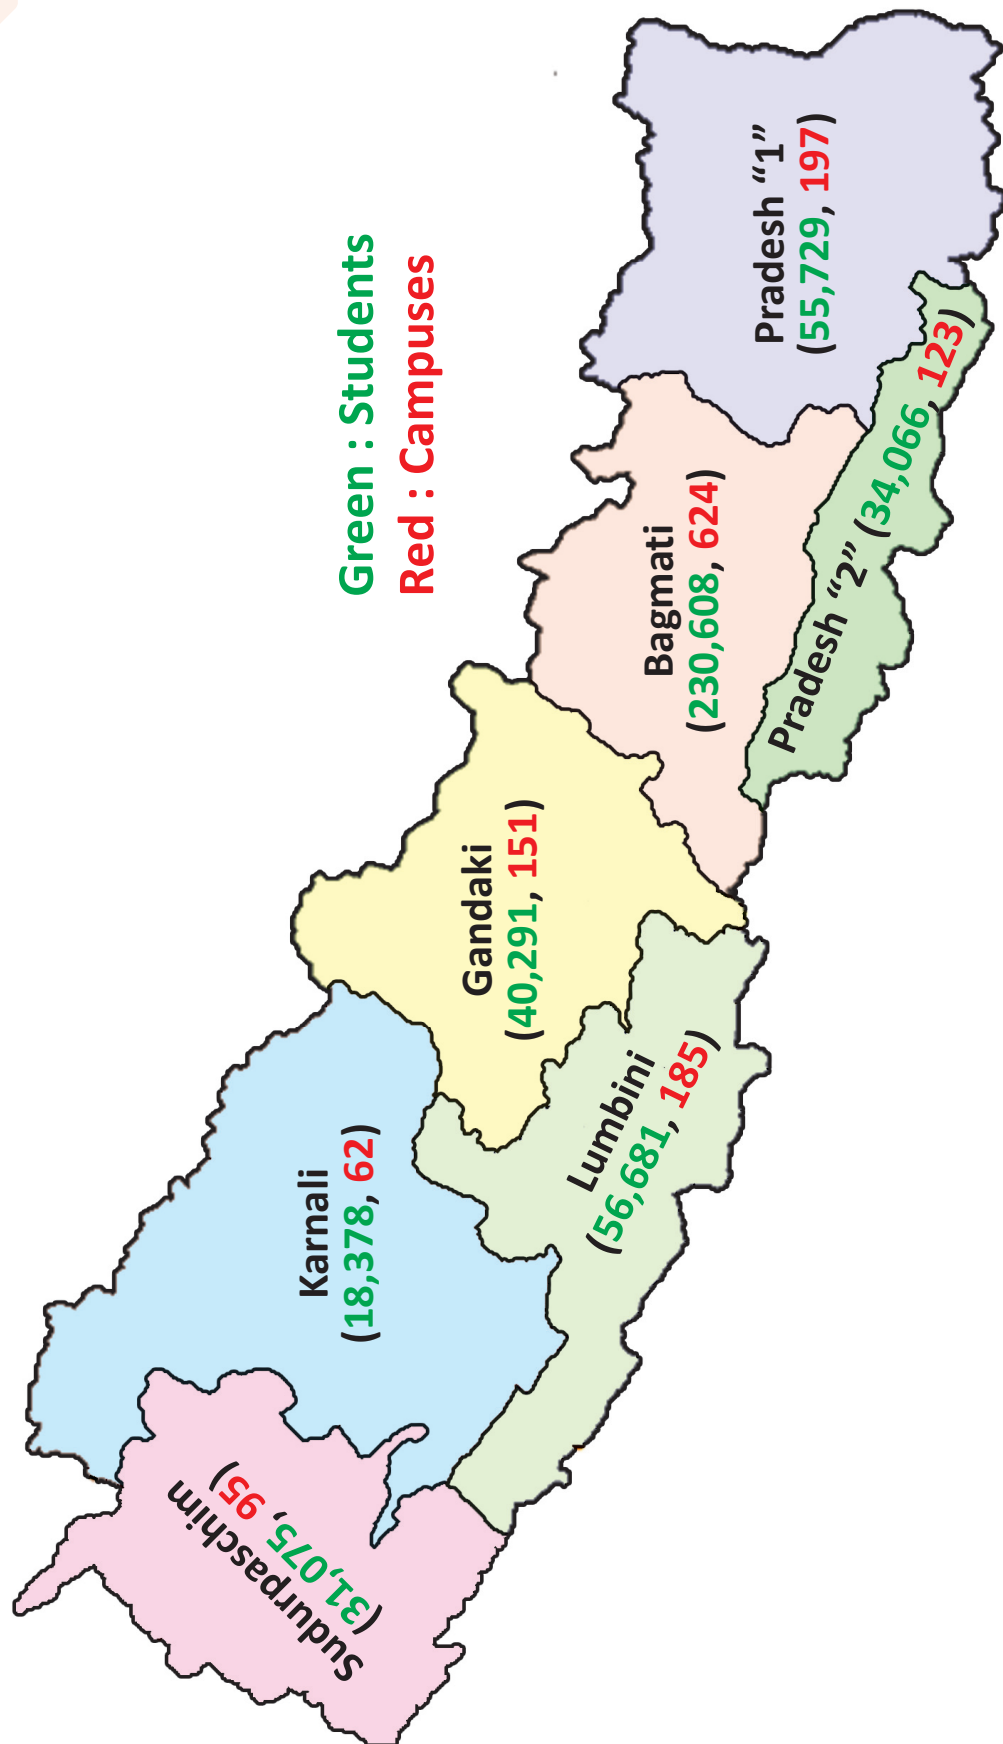

### MAP - 3

## Percentage of Students in Technical and Non-Technical Faculties

## MAP - 4

## SECTION 2

### Universities and Campuses

Higher education in Nepal is provided by the Universities, medical academies through their central departments, constituent campuses and affiliated campuses. Currently there are eleven universities and four medical academies. The universities are Tribhuvan University (TU), Nepal Sanskrit University (NSU), Kathmandu University (KU), Pokhara University (PokU), Purbanchal University (PU), Lumbini Buddhist University (LBU), Agriculture and Forestry University (AFU), Mid-Western University (MU), Far Western University (FWU), Nepal Open University (NOU) and Rajarshi Janak University (RJU) and the medical academies are National Academy of Medical Sciences (NAMS), Patan Academy of Health Sciences (PAHS), BP Koirala Institute of Health Sciences (BPKIHS) and Karnali Academy of Health Sciences (KAHS).

Universities have different institutions/schools/faculties. Faculties offer several programs/courses. Those programs/courses are taught at the central department, constituent campuses and affiliated campuses. Faculties are controlled by the respective dean's office of the university; for each faculty there is one Dean's office. Bachelors and Masters are the two major levels of study (education) offered by the universities. Most of the Bachelor's programs are of four years though some programs such as medical programs are of five years. Master's level programs are of two years. PhD programs are offered in constituent campuses of some universities.

The constituent campuses are managed directly by the concerned university and are the part and parcel of the universities. Affiliated campuses are controlled and managed by non-governmental organizations and their academic programs are affiliated to universities. The affiliated campuses work under the jurisdiction of respective affiliating universities. The affiliating campuses teach courses developed by their universities; exams of such campuses are conducted and evaluated by the affiliating university.

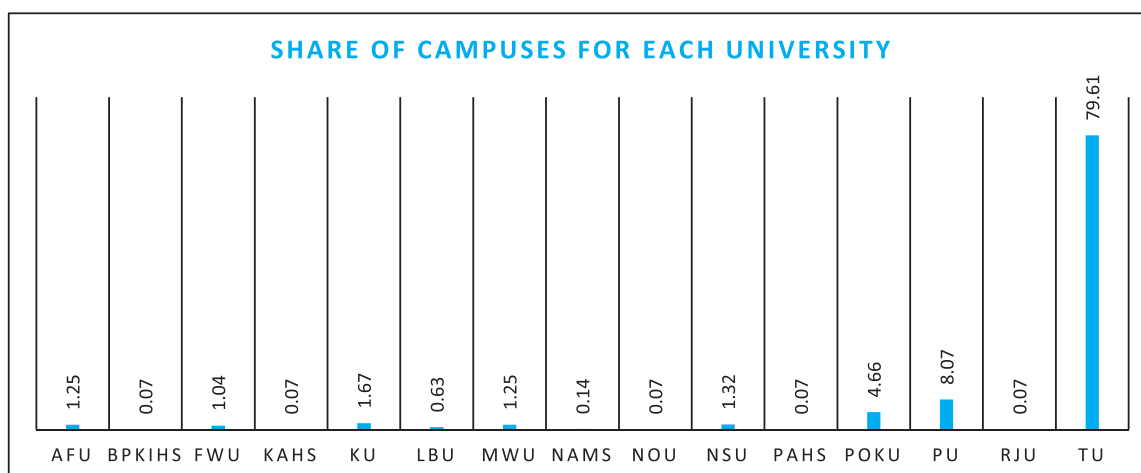

Affiliated campuses are further categorized into private and community; private campuses are controlled and managed by private organizations under the rules and regulations of the concerned university, where as community campuses are controlled and managed by the stakeholders of the community with non-profit motive as per the rules and regulation of the concerned university. Affiliated campuses have considerable degree of administrative and financial autonomy but not academic autonomy. Nether constituent nor affiliated campuses can make any changes to the existing syllabus or conduct the final exam. They follow the syllabuses made by the respective university. The final examination and result publication are done by the respective university.

Table 2.1 shows the number of campuses for each university. Altogether there are 1,437 campuses and 466,828 students. Among 1,437 campuses 152 are constituent, 536 are community and 749 are private. Only three universities: TU, PU and NSU have campuses of all three types.

Table 2.6 shows distribution of campuses of universities by type of campus. The number of private, constituent and community campuses are 749, 152 and 536 respectively. Only three universities (TU, NSU, PU) have all three types of campuses. Most of the community and private campuses belong to TU; PU and PokU are the two universities with many private campuses after TU.

## SECTION 3

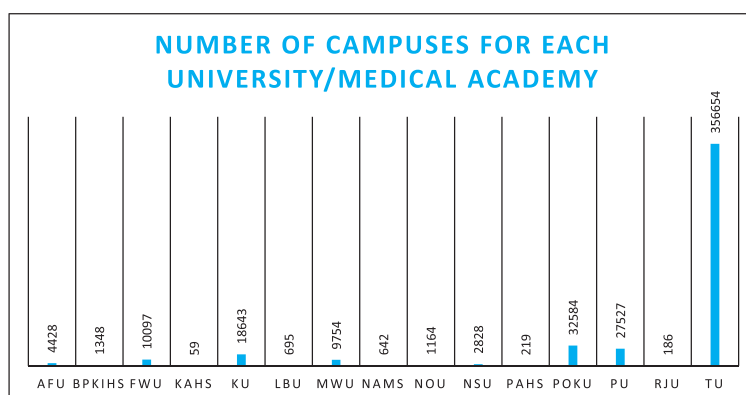

### Enrollment in Higher Education

This section presents information on the number of students enrolled in universities, faculties, level of education (study) offered, types of campuses, provinces and ecological belts. In the year 2019/20, 466,828 students are enrolled in 1437 campuses of eleven universities and four medical academies.

Table 3.1 shows the distribution of students in the eleven universities and the four medical academies. Tribhuvan University (TU) has 76.4 percent students, Pokhara University (PokU) has 6.98 percent, Purbanchal University (PU) has 5.9 percent and Kathmandu University (KU) has 3.99 percent students. Rest of the medical academies and universities have less than 3 percent students of the total students.

Table 3.2 presents distribution of students in three different types of campuses: community, constituent and private. Community campuses have lesser number of students enrolled compared to constituent and private campuses.

**Figure 3.2 Share of students in different type of campuses**

There are 28.52 percent students in Community Campuses; 36.8 percent in Constituent and 36.68 percent in Private campuses.

Hill, Mountain, and Tarai are the three ecological belts of Nepal. Table 3.3 shows student enrollment in the three ecological belts.

Table 3.3 presents distribution of students in the ecological belts. Most of the students are studying in Hill belt compared to Mountain and Tarai belts. The density of population is high in Hill belt compared to Mountain belt. The number of campuses in the Mountain belt is only 77.

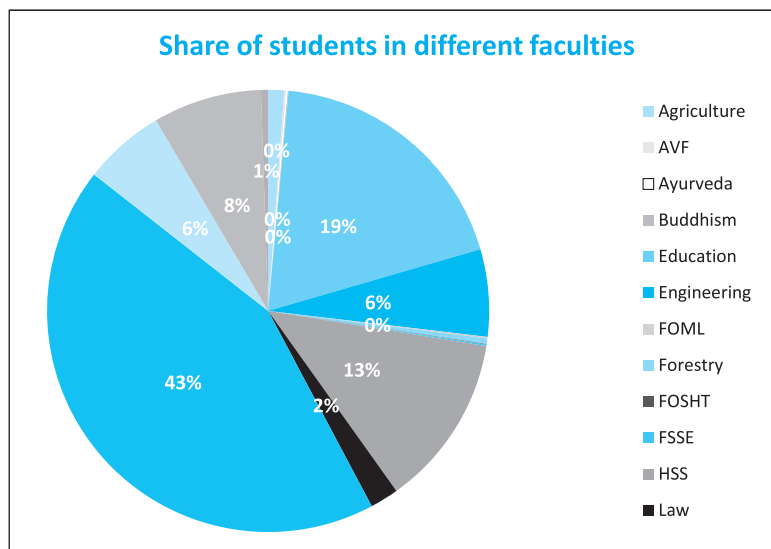

**Figure 3.3 Share of students in three different ecological belts**

Most universities have more than one faculty (a group of university departments related with a major division of knowledge). The major faculties of the universities are Management, Education, Humanities and Social Sciences, Science and Technology. Engineering, medicine, agriculture, forestry, animal science, law, Buddhism, Sanskrit are other the faculties of which programs are also taught but these faculties have very few students compared to Management, Education and Humanities and Social Sciences.

Table 3.5 presents distribution of students in different levels of education (study). From given table it is seen that most of the students are not continuing their studies after completing Bachelor's level of education; the share of students in Master's level is very low compared to Bachelor's level. Bachelors and Master's degree have remained the main programs offered by the universities; PhD programs are provided by TU, KU, NSU and LBU.

### Gender Parity Index (GPI) of Gross Enrollment Ratio (GER):

According to United Nations Statistics Division, “the Gender Parity Index (GPI) is calculated by dividing the female Gross Enrollment Ratio by the male Gross Enrollment Ratio for the given level of education. It is necessary to determine the population of official school age for each level of education by reference to the theoretical starting ages and durations of the International Standard Classification of Education (ISCED97) Level 1 (primary education) and Levels 2 and 3 (secondary education) as reported by the country to calculate the GER. The population of the official age for tertiary education is the 5-year age group immediately following the end of secondary education.” GPI is one of the most important indicators used to measure the participations of girls in the higher education.

**Table 4.1 GPI of GER**

Higher Education			
	Female	Male	Total
Enrollment	247,370	219,458	466,828
Population	1,592,955	1,518,915	3,111,870
GER	15.53	14.45	15.00

Here, Gender Parity Index of Gross Enrollment Ratio is 1.07 (15.53/14.45).

## SECTION 5

### Pass Rate

The pass rate is calculated using the data provided by the Office of the Controller of Examinations (OCE) of the universities. Eighty-nine percentage of total students belong to the bachelor level of education. Among the eighty-nine percentage of the students in the bachelor level of education, seventy-seven percentage of the students belong to Tribhuvan university.

The following table shows the pass rates of two universities and a medical academy. Tribhuvan University has the highest share of students in the bachelor and masters level of education; the pass rate of TU highly influences the overall pass rate of the higher education of Nepal. The pass rate of TU stood at 29.3 percent in the year 2019/20 in the bachelor level of education.

### Graduates

This section provides number of students graduated from PAHS, MU, AFU, NAMS, BPKIHS, PokU, TU, NOU, and KU only. The number of graduates is based on the number of student's applications for convocation, which is usually lower than the actual numbers of graduates.

## Gross Enrollment Ratio (GER)

“The United Nations Educational, Scientific and Cultural Organization (UNESCO), describes ‘Gross Enrollment Ratio’ as a number of students enrolled in a given level of education, regardless of age, expressed as a percentage of the official school-age population corresponding to the same level of education. For the tertiary level, the population used is the 5-year age group starting from the official secondary school graduation age (UNESCO).”

The Gross Enrollment Ratio gives information on the access and participation of the population of particular age groups in the education.

In this context, five-year age group span (19-23) is used to determine the GER for higher education.

**Table 7.1 –Higher education GER**

## Public Financing for Higher Education

Universities of Nepal receive financial support from the government through the Ministry of Education and it is channelized via the University Grants Commission. However, the medical academies receive the financial support for higher education directly from the Ministry of Health and Population. The grants released to the universities, however, depends on the nature of the university.

### Teachers in Higher Education

This section provides information about the number of teachers in the constituent campuses of the universities. The universities have categorized teachers in the different levels according to the experience, research publications, and educational qualifications. The major categories of teachers in the order of decreasing status are:

- Professors
- Readers/Associate Professors
- Lecturer
- Assistant Lecturers
- Others (Including Instructors / Course Contracts)

Some variation exists in the category of teacher between the universities.

## Student – Teacher Ratios

Student-Teacher ratio (STR) measures the average number of students per teacher. It is calculated by total number of students divided by total number of teachers.

In this section, Student to Teacher ratio of the constituent colleges of Universities is presented.

**Table 10.1 Student to teacher ratio of constituent campuses of different universities**

Table 11.1 presents information about the number of campuses according to different campus sizes; size of campuses is specified as the number of students enrolled in the campus. Number of students is divided into five ranges: less than and equal to hundred, more than 100 and less than and equal to 200, more than 200 and less than and equal to 500, more than 500 and less than and equal to 2000 and more than 2000. There are 510 campuses with less than 100 students.

## Brief Description of Higher Education System of Nepal

Education imparted after the higher secondary level or the 12th standard or PCL is considered as Higher education in Nepal. At present, there are eleven universities—TU, NSU, KU, PU, PokU, LBU, FWU, MWU, AFU, NOU, RJU and four autonomous academic institutions—NAMS, BPKIHS, PAHS and KAHs that offer higher education in Nepal. The universities have two types of campuses: constituent campuses – campuses directly managed and administered including financial management by the concerned university; and affiliated campuses – campuses whose academic programs are affiliated to a university, but managed and administered including financing either by private individual/organization (private campuses) or by local community stakeholders (community campuses). The academic activities of both types of campuses are governed by the rules and regulations of the concerned university. There are altogether, 1437 campuses in the year 2019/20 (152 constituent, 536 community, and 749 private) with 466,828 students enrolled in different academic programs in higher education.

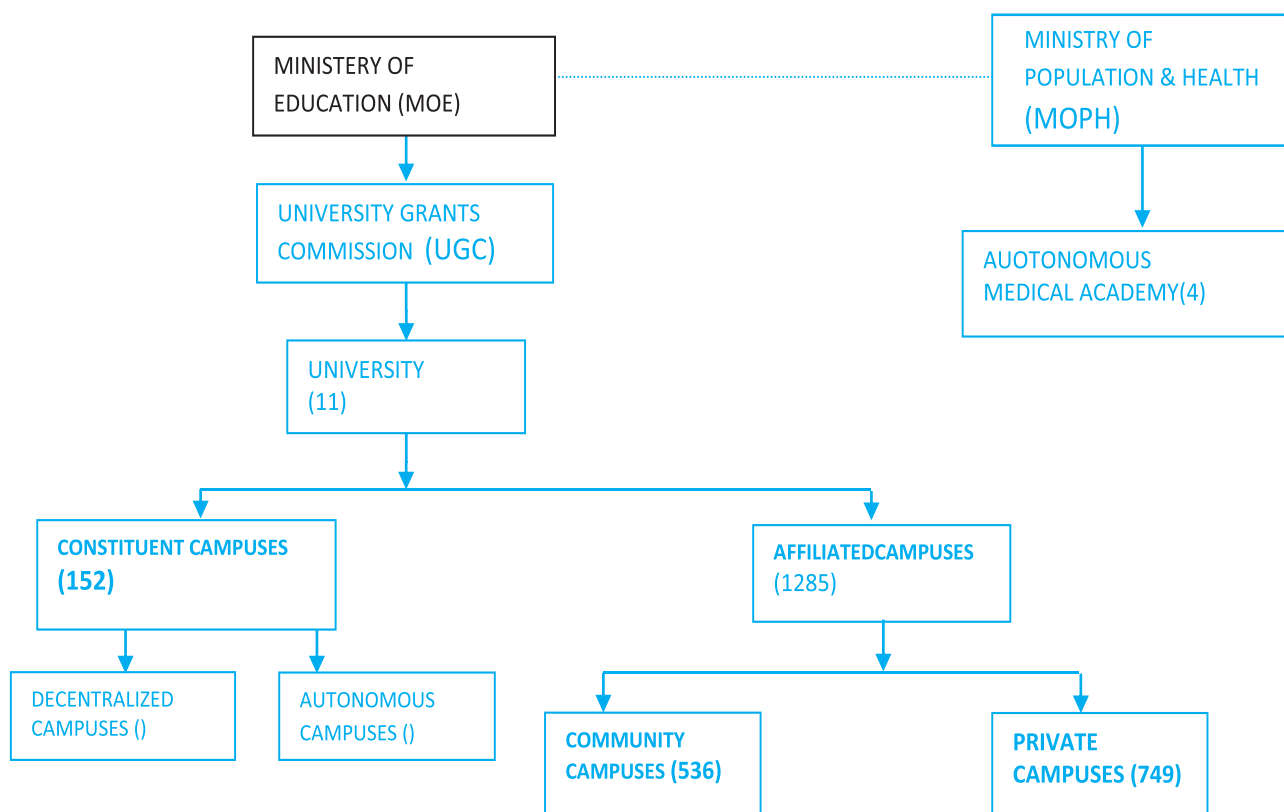

The campuses follow the courses designed by the affiliating universities and examinations are conducted and processed by OCE of the respective universities<sup>1</sup>. The academic calendar for student enrolment, schedule of exam, publication of results, courses offered and class hours may vary from university to university. The institutions of higher education are at present providing courses on science and technology, education, management, social sciences and humanities, law, engineering, forestry, medicine, agriculture and animal sciences, Ayurveda and Sanskrit. They run their academic programs with annual or semester systems at the bachelor, master, M. Phil., and Ph.D. levels, but some universities also offer programs like post-graduate diploma (PGD). Depending upon the stream and subject, bachelor level programs are of three to five years duration, master level programs of two years duration and PGD and M. Phil. courses generally of 1½ year duration.

## A BRIEF DESCRIPTION OF UNIVERSITIES AND ACADEMIES

### 1. Tribhuvan University (TU)

Tribhuvan University was established in 2016 BS (1959 AD). The central office of TU is situated in Kirtipur, an ancient town in the southern part of Kathmandu valley. TU is the first and largest university of Nepal. The objectives of TU are to produce skilled human resources essential for overall development of the country and to preserve and develop the historical and cultural heritage of the nation.

It comprises of five institutes, four faculties, and four research centers. The institutes are technical in nature and offer several specialized technical courses on: science and technology, engineering, forestry, agriculture and animal sciences and medicine, whereas the faculties offer courses generally in: management, humanities and social sciences, education, law in bachelor, master, M. Phil., and Ph.D. levels of education. Though there are eleven universities and four medical academies in the country, TU holds more than 75 percent of the total higher education enrollment and offers more than 173 academic programs at various levels.

The technical institutes, faculties and research centers under TU are:

#### Technical Institutes

- a. Institute of Agriculture and Animal Sciences (IAAS)
- b. Institute of Medicine (IoM)
- c. Institute of Engineering (IoE)
- d. Institute of Forestry (IoF)
- e. Institute of Science and Technology (IoST)

#### Faculties

- a. Faculty of Humanities and Social Sciences
- b. Faculty of Management
- c. Faculty of Law
- d. Faculty of Education

#### Research Centers

- a. Centre for Economic Development and Administration (CEDA)

## Report Preparation

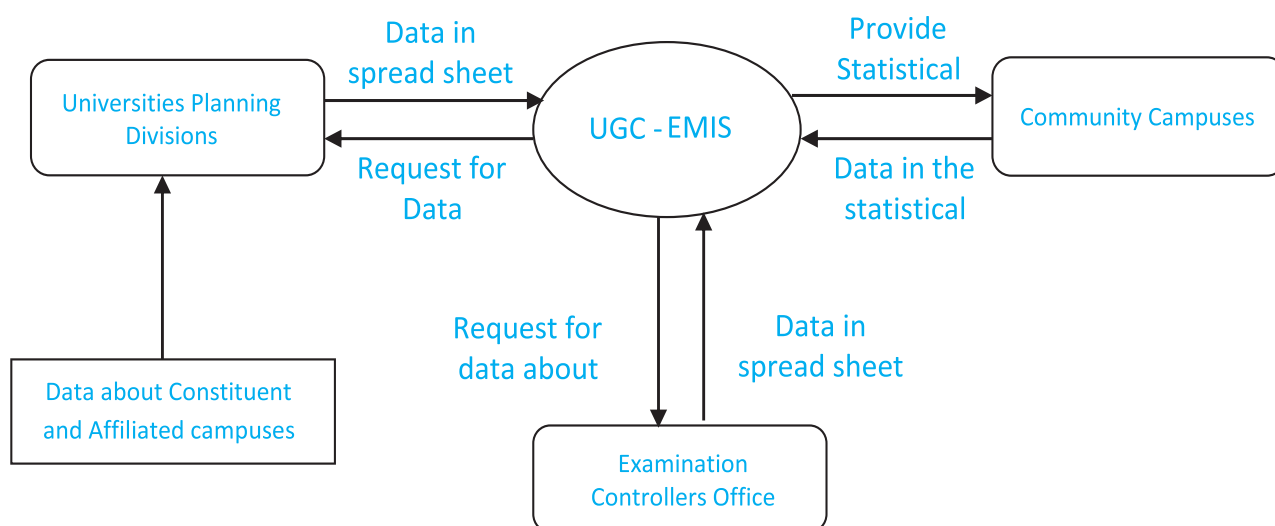

To prepare this report required data were collected from different sources: Universities, Office of the Controller of Examination, campuses etc. Tools used to collect data included:

- Statistical forms
- Emails
- Phone calls
- Personal visit to sources

The provided data were in tabular format in paper or in spread sheet.

- Those data were inserted into the standard UGC spread sheet format.
- There were noise, redundancies in data; effort to clean those noise and redundancy were made as much as possible. The cleaned data were uploaded to database using database tool and software modules.
- Aggregated tables, summary tables required to prepare this report were generated using software.
- Those aggregated and summary tables were then analyzed and described manually and incorporated into the report.

## Definition of key Terminologies/Indicators

**Gender parity index (GPI):** Ratio of the female-to-male value of a given indicator. GPI value of 1 indicates parity between sexes; a GPI less than 1 indicates a disparity in favor of boys; whereas a GPI greater than 1 indicates a disparity in favor of girls.

*GPI= Female enrolment/ Male enrolment*

According to United Nations Statistics Division, “the Gender Parity Index (GPI) is then calculated by dividing the female Gross Enrolment Ratio by the male Gross Enrolment Ratio for the given level of education. To calculate the Gross Enrolment Ratio, one must first determine the population of official school age for each level of education by reference to the theoretical starting ages and durations of the International Standard Classification of Education (ISCED97) Level 1 (primary education) and Levels 2 and 3 (secondary education) as reported by the country. The population of the official age for tertiary education is the 5-year age group immediately following the end of secondary education. The Gender Parity Index (GPI) is then calculated by dividing the female Gross Enrolment Ratio by the male Gross Enrolment Ratio for the given level of education.”

**Gross enrolment ratio (GER):** Number of students enrolled in tertiary education, regardless of age, expressed as a percentage of the population in the theoretical age group for the same level of education, following the secondary school age group.

*Formula: GER =Total Enrolment (Bachelor +master level) / Population \* 100*

**Student/teacher ratio (STR):** Average number of students per teacher at the level of education specified in a given academic year.

*STR= Number of students/Number of teachers*

**Universities:** Institutes providing bachelor or higher-level education, provide affiliation to campuses, make programs, courses, syllabuses, conduct examination, publish result.

**Constituent campuses:** managed directly by concerned university and are the part and parcel of universities, runs the programs developed by the university.

**Affiliated campuses:** Educational institutions are defined as entities that provide instructional or education-related services to individuals and other education institutions. It is controlled and managed by non-governmental organization (e.g. a church, trade union, local community or private business enterprise) and its academic programs are affiliated to a university; the affiliated campuses are further classified in the category of private and community campuses. Private campuses are controlled and managed by private organization under the rules and regulation of the concerned university. These types of campuses are privately funded for profit. Community campuses are controlled and managed by community stakeholder under the rules and regulation of the concerned university.

**Public expenditure on education:** Total current and capital expenditure on education by local, Provincial and national governments, including municipalities (household contributions are excluded). It covers public expenditure for both public and private institutions. Current expenditure includes expenditure for goods and services that are consumed within a given year and have to be renewed the following year, such as staff salaries and benefits; contracted or purchased services; other resources, including books and teaching materials; welfare services; and items such as furniture and equipment, minor repairs, fuel, telecommunications, travel, insurance and rent. Capital expenditure includes expenditure for construction, renovation and major repairs of buildings, and the purchase

of heavy equipment or vehicles.

**General education:** Education which is mainly designed to lead participants to a deeper understanding of a subject or group of subjects, especially, but not necessarily, with a view to preparing participants for further (additional) education at the same or a higher level. Successful completion of these programs may or may not provide the participants with a labor market relevant qualification at this level.

**Technical education:** Education which is mainly designed to lead participants to acquire the practical skills, know-how and understanding necessary for employment in a particular occupation or trade or class of occupations or trades. Successful completion of such programs leads to a labor-market relevant vocational qualification recognized by the competent authorities in the country in which it is obtained (e.g. Ministry of Education, employers' associations, etc.).

**Enrolment:** Number of students enrolled at a given level of education, regardless of age.

**Entrance age (official):** Age at which students would enter a given program or level of education, assuming they had started at the official entrance age for the lowest level, studied full time throughout and progressed through the system without repeating or skipping a grade. The theoretical entrance age to a given program or level may be very different from the actual or even the most common entrance age.

**Equity:** In education, the extent to which access and opportunities adults are just and fair. This implies reduction of disparities based on gender, poverty, residence, ethnicity, language and other characteristics.

**Graduate:** A person who has successfully completed the final year of a level or sublevel of education. In some countries completion occurs as a result of passing an examination or a series of examinations. In others it occurs after a requisite number of course hours have been accumulated. Sometimes both types of completion occur within a country.

**Private enrolment:** Number of students enrolled in institutions that are not operated by public authorities but controlled and managed, whether for profit or not, by private bodies such as non-government organizations, religious bodies, special interest groups, foundations or business enterprises.

**Community enrolment:** Number of students enrolled in institutions that are controlled and managed by public authorities or agencies (national/federal, state/provincial or local), whatever the origins of their financial resources.

**Teachers/teaching staff:** Number of person employed full time or part time in an official capacity to guide and direct the learning experience of pupils and students, irrespective of their qualifications or the delivery mechanism, i.e. face-to face and/or at a distance.

**Campus size:** Total number of students enrolled in a campus.

## Introduction of University Grants Commission (UGC)

The University Grants Commission (UGC) was established after the implementation of the multi-university concept in Nepal. The UGC Act was approved by the Parliament on November 22, 1993, which started functioning from 1994. UGC is responsible for allocation and disbursement of grants to the universities and their campuses, regulating their activities for quality assurance, coordinating universities for mutual cooperation, and formulating policies and programs on the establishment of new universities.

### Main Functions of UGC

- Formulate policies on allocation of government grants to universities and higher education institutions.
- Disburse grants to universities and make recommendations to the government for the grant provisions.
- Award research grants, scholarships, and fellowships.
- Take measures necessary to determine and maintain the criteria and standards of higher education.
- Formulate programs and policies necessary for the promotion and enhancement of the quality of higher education.
- Advise the Government of Nepal on the establishment of new universities.
- Make necessary arrangements for the exchange of facilities and fellowships between universities and educational institutions within and outside Nepal.
